FOR IMMEDIATE RELEASE

## **Maryland Milk Production Second Quarter 2014**

**HARRISBURG, PA** – The USDA's statistical division, NASS, released milk production numbers for the nation and the largest dairy farming states for the second quarter of 2013 and 2014. Maryland operators produced 254 million pounds of milk from 50 thousand head of milk cows in the second quarter of 2014, and 249 million pounds of milk in the second quarter of 2013.

The Northeastern region has decreased its production only slightly from 7,564.4 million pounds in the second quarter of 2013 to 7,562.9 million pounds for the second quarter of 2014. Nationally, 52,817 million pounds of milk was produced in the second quarter of 2014 from 9.3 million head of milk cows.
